We're Division Twelve, and we make things. Things that make people happy. From tables, to chairs, to stools, to benches, our bent metal furniture is built to last.

Bent right here in North America, each and every thing we make is the product of durable materials, modernist design, and oh-so-careful craftsmanship. From prototype to final installation, we're there every step of the way, to ensure our pieces exceed your expectations, every single time.

But no matter what we do, the best part of the things we make is that you can make them your own. They're versatile, timeless, and come in a variety of finishes you can pick and choose. We do what we do, to let you do you.

We like the Earth. So we use materials it approves of and that last a lifetime. Our steel and textiles are fully recyclable, our seat foam contains bio-based ingredients, and our seating is BIFMA LEVEL® certified. But we don't just stop there.

We use an eco-friendly powder coating process that limits VOC emissions in our metal frames. Plus, we're a zero-waste to landfill facility and many of our products are carbon neutral — all to deliver sustainable furniture we can humble-brag about.

P.S. Our durable metal and 100% recyclable HDPE seat are perfect for any outdoor space. They're built to take on the elements. Rain. Sleet. Snow. Aggressive squirrels. Bring it on.

The Family

If you want comfort, Resto® has you covered. Made for those who take sitting real seriously, its wide seat and perfectly curved backrest have pleased even the pickiest chair snobs.

“Here, kitty kitty.” Catty® is inspired by the classic lion tamer chair, but with a look that makes you feel like it’s barely there. Ultra-light, and ultra-stackable, it’s the spectacularly discreet seat you never knew you wanted. Until now.

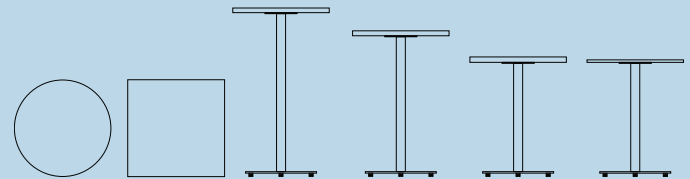

Height Options	Café (Stackable), Counter & Bar (Armless Stackable)
Seat Options	Steel, White Oak & Stained Oak Arm & Armless

Dek™ has a unique oval seat inspired by the deck of a skateboard. But standing on it is not recommended. Even if you're at the bar, and your song comes on, and every ounce of your being wants to stand and sing out to a room full of strangers who will be both scared and impressed at the same time. Even then.

Tables and benches and stools, oh my! Hectic® thrives in the most chaotic spaces. Its durable pieces can be easily mixed, matched, and moved in the most dire moments — like when George found out Martin was the one who kept parking in his reserved spot and they could NOT sit beside each other anymore.

Height Options	Café, Counter & Bar
Seat Options	White Oak, Stained Oak, Upholstered & 100% Recyclable HDPE

You want color? We've got color. Not only does our bent metal come in all the colors of our curated palette, so do a bunch of our finishes – from our stained oak to our 100% recyclable HDPE seat. So you can match the finish to the frame, or mix it up any which way you want.

The solid colors in this brochure have been calibrated to match (as closely as possible) the actual powder coatings and finishes.
